

December 2009

Dear Beckman Coulter Customer:

Beckman Coulter is pleased to present our 2010 RIA Shipping Schedule for our manual immunoassay products.

2010 RIA SHIPPING SCHEDULE/PRODUCT LISTS

- **Please note:** Fresh RIA products are only manufactured on the dates stated in the enclosed shipping schedules.
- Beckman Coulter RIA products listed on **Schedule A:**
 - To maximize shelf life and facilitate import, we will no longer maintain warehouse inventory of these products between availability dates.
 - **To assure delivery, place your purchase order 10 days prior to your required availability date.**
 - For example, to receive product on the January 25 shipping date, you must place your order by January 15..
 - **Note:** The manufacturing site, packaging, and labeling of these products will change
 - There is no change to the product composition or performance.
- As previously communicated, the RIA products listed on **Schedule B** will be discontinued after the March 18 availability.
 - In order to ensure inventory availability, please place your order for this last availability date no later than **February 25.**
 - We are not able to guarantee order fulfillment for orders placed after this date.
- Also enclosed is a complete list of the manual EIA products that will be offered by Beckman Coulter in 2010 (Attachment C).

NEW ONLINE ORDERING!

- **New this year**—Beckman Coulter's online store! All IVD labeled products are available to order, and pricing quotes for RUO products can also be obtained at the online store: <https://www.beckmancoulter.com/eCatalog/>

FEATURE PRODUCTS

- **AMH Gen II*:** Beckman Coulter is excited to announce the second generation of our DSL AMH kit featuring:
 - *Calibration to Beckman Coulter's Immunotech AMH assay providing improved consistency.*
 - *Improved precision and lot-to-lot reproducibility*
 - *Published research reports have assessed AMH levels as endocrine markers for the study of male and female gonadal function including research in ovarian reserve assessment.*
- **Inhibin B Gen II*:** The Beckman Coulter Inhibin B Gen II assay features
 - *<4 hours of incubation, eliminating overnight incubation and providing same-day results*
 - *Correlation with the well published OBI DSL assay*
 - *Research studies have shown that Inhibin B may have a role in a number of areas including the assessment of fertility potential, ovarian reserve, menopause, precocious puberty, and testicular function.*
- **cPAPP-A***
 - *Now available for research use only is the Beckman Coulter cPAPP-A ELISA assay for measurement of circulating PAPP-A. The cPAPP-A assay features analytical sensitivity of 0.18 µIU/mL allowing for measurement of low levels of analyte.*

If you have any questions regarding this information, please contact your local Beckman Coulter Representative. Thank you for your continued support of Beckman Coulter products in 2010.

Sincerely,

Susan Retka
Product Manager, Beckman Coulter, Inc.

***Please note:** In the United States these assays are "Research Use Only." A Research Use Only certificate must be signed by the ordering institution or investigator and on file with Beckman Coulter before kits may be shipped.

Schedule A—2010 U.S. RIA Shipping Availability

		Shelf Life*	JAN	FEB	MAR	APR	MAY	JUN	JUL	AUG	SEP	OCT	NOV	DEC
DSL9200	Androstenediol glucuronide	12	25	15	8, 29	19	10, 31	21	12	2, 23	13	4, 25	15	6, 27

The 2010 RIA Shipping Schedule reflects ship dates for the following RIA products, which are scheduled to be discontinued in March 2010:

- DSL-5000 17- α OH Progesterone
- DSL-6800 17- α OH Progesterone
- DSL-8600 Aldosterone
- DSL-6000 Androstenediol Glucuronide
- DSL-4200 Androstenedione
- DSL-1200 Calcitonin
- DSL-7700 Calcitonin
- DSL-7700i Calcitonin
- DSL-2100 Cortisol
- DSL-2000 Cortisol
- DSL-7000 C-Peptide
- DSL-9000 DHEA
- DSL-3500 DHEA-S
- DSL-43100 Estradiol
- DSL-4400 Estradiol
- DSL-3700 Estriol
- DSL-1400 Estriol
- DSL-1400-5 Estriol
- DSL-1900 hGH
- DSL-23100 Human Leptin
- DSL-23100i Human Leptin
- DSL-2800 IGF-I (non-extraction)
- DSL-5600 IGF-I (with extraction)
- DSL-7800 IGFBP-1
- DSL-7100 IGFBP-2
- DSL-2600 IGF-II (non-extraction)
- DSL-9100 IGF-II (with extraction)
- DSL-1600 Insulin
- DSL-2900 Mouse/Rat IGF-I
- DSL-3900 Progesterone
- DSL-3400 Progesterone
- DSL-8000 PTH
- DSL-4000 Testosterone
- DSL-4100 Testosterone

Both domestic and international orders ship on the Thursday release date. Product list and availability are subject to change. Please contact your local Beckman Coulter representative for additional information.

Attachment C—2010 Manual EIA Product List

EIA PRODUCTS:

Analyte	Part Number
